Independent Auditors' Report

Board of Commissioners
GRAVITY DRAINAGE DISTRICT No. 3
OF CAMERON PARISH
Cameron, Louisiana

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the Gravity Drainage District No. 3 of Cameron Parish, a component unit of the Cameron Parish Police Jury, as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the Gravity Drainage District No. 3 of Cameron Parish's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Gravity Drainage District No. 3 of Cameron Parish as of December 31, 2014, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on pages 16 through 17 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Gravity Drainage District No. 3 of Cameron Parish has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economical, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Gravity Drainage District No. 3 of Cameron Parish's basic financial statements. The other supplemental information schedules listed in the table of contents are presented for the purpose of additional analysis and are not a required part of the basic financial statements of Gravity Drainage District No. 3 of Cameron Parish.

Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly presented in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a report dated May 28, 2015, on our consideration of the Gravity Drainage District No. 3 of Cameron Parish's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Gravity Drainage District No. 3 of Cameron Parish's internal control over financial reporting and compliance.

RECONCILIATION OF CHANGE IN GOVERNMENTAL FUND BALANCE
TO THE STATEMENT OF ACTIVITIES
December 31, 2014

Net change in fund balances - total governmental funds \$ (1,089.72)

Amounts reported for governmental activities in the statement of activities
are different because:

Governmental funds report operating service, materials and supplies as
expenditures. However, in the statement of activities, assets with an
individual cost of \$1,000 or more are capitalized and the cost is allocated
over their estimated lives and reported as depreciation expense.

For the current period these amounts are:

Materials and supplies	-	
Depreciation expense	<u>(1,038.18)</u>	
Excess of capital outlay over depreciation expense		<u>(1,038.18)</u>

Change in net position of governmental funds \$ (2,127.90)

GRAVITY DRAINAGE DISTRICT NO. 3 OF CAMERON PARISH
Cameron, Louisiana

Notes to the Financial Statements

December 31, 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Gravity Drainage District No. 3 of Cameron Parish was created on April 6, 1931, as a political subdivision of the State of Louisiana under the provisions of Louisiana Revised Statutes 38:1751-1802, and was established for the purpose of opening and maintaining all natural drains in the district where drainage is accomplished using the natural force of gravity. The district is governed by a board of 5 commissioners who are appointed by the Cameron Parish Police Jury.

The accompanying basic financial statements of the District have been prepared in conformity with governmental accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Reporting Entity

As the governing authority of the parish, for reporting purposes, the Cameron Parish Police Jury is the financial reporting entity for Cameron Parish. The financial reporting entity consists of (a) the primary government (police jury), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board (GASB) Statement No. 14 established criteria for determining which component units should be considered part of the Cameron Parish Police Jury for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

Appointing a voting majority of an organization's governing body and the ability of the police jury to impose its will on that organization and/or:

- a. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the police jury.
- b. Organizations for which the police jury does not appoint a voting majority but are fiscally dependent on the police jury.
- c. Organizations for which the reporting entity financial statements would be misleading if the data of the organization is not included because of the nature of significance of the relationship.

GRAVITY DRAINAGE DISTRICT NO. 3 OF CAMERON PARISH
Cameron, Louisiana

Notes to the Financial Statements

December 31, 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Because the police jury appoints all board members of the district and can impose its will on the district, the district was determined to be a component unit of the Cameron Parish Police Jury, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the district and do not present information on the police jury, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

Basic Financial Statements – Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures. Government resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which the spending activities are controlled. The district's current operations require the use of only one governmental fund type. The governmental fund type is described as follows:

General Fund - The General Fund is the general operating fund of the district and is used to account for all financial activities not required to be accounted for in other funds.

Basic Financial Statements – Government-Wide Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's funds). In the government-wide Statement of Net Position, governmental activities are presented on a consolidated basis and are reported on a full accrual, economic resource basis, which recognizes all long-term debt and obligations. The District's net position is reported in three parts – net investments in capital assets; restricted net position; and unrestricted net position. The government-wide Statement of Activities reports revenues and expenses on a full accrual, economic resource basis. The Statement of Activities recognizes depreciation expense.

Governmental activities generally are financed through taxes. Revenues, including all taxes, are presented as general revenues.

This government-wide focus is more on the sustainability of the District as an entity and the change in the District's assets resulting from current year's activities.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

GRAVITY DRAINAGE DISTRICT NO. 3 OF CAMERON PARISH
Cameron, Louisiana

Notes to the Financial Statements

December 31, 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Accrual

The governmental activities in the government-wide financial statements and the governmental fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Capital Assets and Long-term Debt

The accounting and reporting treatment applied to capital assets associated with a fund are determined by their measurement focus. General capital assets are recorded as expenditures in the governmental funds and capitalized in the government-wide financial statements. All purchased fixed assets are valued at historical cost, or where historical cost is not available, estimated historical cost based on replacement cost. The minimum capitalization threshold is any individual item with a total cost greater than \$1,000.

Depreciation of capital assets is computed and recorded by the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows:

<u>Description</u>	<u>Estimated Lives</u>
Machinery and equipment	5 – 7 years

The district has no long-term debt at December 31, 2014.

Use of Estimates

The financial statements are prepared in conformity with generally accepted accounting principles and, accordingly, include amounts that are based on management's best estimates and judgments. Actual results could differ from these estimates.

Accounts Receivable

Accounts receivable represent amounts due for ad valorem taxes and other governmental agencies and are deemed to be fully collectible by management.

GRAVITY DRAINAGE DISTRICT NO. 3 OF CAMERON PARISH
Cameron, Louisiana

Notes to the Financial Statements

December 31, 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Budgets and Budgetary Accounting

Annually, the District adopts a revenue and expenditure budget for the general fund. A forecast of revenues and expenditures is made based upon the prior year's expenditures, taking into consideration additional expenditures that can be predetermined and estimated. Amendment to the budget is required when actual receipts for the year fail to meet budgeted revenues by five percent or more, or when actual expenditures for the year exceed budgeted expenditures by five percent or more.

The budget is adopted on the cash basis method of accounting. Budgetary comparisons presented in this report are on this non-GAAP budgetary basis. Budget amounts are as originally adopted, adjusted for subsequent amendments.

2. CASH AND CASH EQUIVALENTS

Deposits in excess of federally insured amounts are required by Louisiana state statute to be protected by collateral of equal market value. Authorized collateral includes general obligations of the U. S. Government, obligations issued or guaranteed by an agency established by the U. S. Government, general obligation bonds of any state of the U. S., or any Louisiana Parish, municipality, or school district. The District's bank and time deposits at year end were entirely covered by federal depository insurance.

3. CAPITAL ASSETS

Capital assets consist of the following

	12/31/2013	Additions	Disposals	12/31/2014
Vehicles	\$ 12,374	\$ -	\$ -	\$ 12,374
Equipment	<u>63,699</u>	<u>-</u>	<u>-</u>	<u>63,699</u>
	76,073	-	-	76,073
Accumulated Depreciation	<u>(67,768)</u>	<u>(1,038)</u>	<u>-</u>	<u>(68,806)</u>
Total	<u>\$ 8,305</u>	<u>\$ (1,038)</u>	<u>\$ -</u>	<u>\$ 7,267</u>

GRAVITY DRAINAGE DISTRICT NO. 3 OF CAMERON PARISH
Cameron, Louisiana

Notes to the Financial Statements

December 31, 2014

4. AD VALOREM TAXES

The district has an authorized tax millage of 5.00 mills for general maintenance and operation of the district. For the year ended December 31, 2014, taxes were levied on taxable assessed valuations of \$62,791,989 at a millage of 5.00.

Property tax millage rates are adopted in July for the calendar year in which taxes are levied and recorded. All taxes are due and collectible when the assessment rolls are filed on or before November 15th of the current year, and become delinquent after December 31st. Property taxes not paid by the end of February are subject to lien.

5. FUND BALANCE

In accordance with Government Accounting Standards Board Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, the District classifies governmental fund balances as follows:

Nonspendable – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – amounts that can be used only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed – amounts constrained to specific purposes by the district itself, using its highest level of decision-making authority (i.e., Board of Commissioners). To be reported as committed, amounts cannot be used for any other purpose unless the district takes the same highest level action to remove or change the constraint.

Assigned – amounts the district intends to use for a specific purpose. Intent can be expressed by the Board of Commissioners or by an individual or body to which the Board delegates the authority.

Unassigned – amounts that are available for any purpose.

The district establishes (and modifies or rescinds) fund balance commitments by passage of board resolution or formal approval. Assigned fund balance is established by the district through the adoption or amendment of the budget as intended for specific purposes.

GRAVITY DRAINAGE DISTRICT NO. 3 OF CAMERON PARISH
Cameron, Louisiana

Notes to the Financial Statements

December 31, 2014

6. RISK MANAGEMENT

The district is exposed to various risk of loss related to torts; thefts of, damage to, and destruction of assets and errors and omissions. To handle such risk of loss, the district maintains surety bond coverage, a general liability policy, an errors and omissions policy, and automobile liability.

7. VACATION PAY/SICK LEAVE AND PENSION PLAN

The district has no employees; therefore, the district does not have a formal policy on vacation and sick leave and does not contribute to a pension plan.

8. LITIGATION AND CLAIMS

The district is not involved in any litigation at December 31, 2014, nor is it aware of any unasserted claims.

9. HURRICANE RITA

In September 2005, Cameron Parish was devastated by Hurricane Rita. At the time of the hurricane, the District had no fixed assets, except a vehicle, so assets were not impaired, however, the costs of debris removal has had a significant impact on the expenditures for operations. Since the hurricane, the district has received \$374,418 in reimbursements from FEMA. Although additional documentation has been submitted for reimbursement, the District is uncertain how much more will be received.

10. HURRICANE IKE

In September 2008, Cameron Parish was again devastated by Hurricane Ike. The cost of debris removal has had significant impacts on the expenditures for operations. In 2013, The District completed a project worksheet with FEMA and incurred \$259,928 in expenses. The District has received \$212,509 in reimbursements and fully expects to collect an additional \$21,426 for this project. Since the hurricane, the district has received \$556,271 in reimbursements from FEMA. Although additional documentation has been submitted for reimbursement on several other projects, the District is uncertain how much more will be received.

Note to Required Supplementary Information - Budgetary Reporting

For the Year Ended December 31, 2014

The Budgetary Comparison Schedule - Budget to Actual presents comparisons of the original and final legally adopted budget with actual data on a budgetary basis.

A proposed budget is prepared and submitted to the Board of Commissioners prior to the beginning of each year. A budget summary and notice of a public hearing is published with the public hearing being conducted prior to the commencement of the budget year.

The annual operating budget, prepared on the cash basis, covers all of the Drainage activities. At the end of the fiscal year, unexpended appropriations automatically lapse. Budget amendments are approved by the Board of Commissioners.

Below is a reconciliation from the Budgetary basis to the GAAP basis financial statements:

Receipts - Budgetary Basis	\$392,177.45
Differences - budget to GAAP	
Receipts in current year for prior year revenue	(386,897.23)
Revenues for financial statement purposes to be received in subsequent year	<u>245,032.54</u>
Total revenues as reported on statement of activities - GAAP Basis	<u>\$250,312.76</u>
Disbursements - Budgetary Basis	\$250,262.03
Differences - budget to GAAP	
Current year disbursements reported as expenses in the prior year	(11,509.49)
Expenses for financial statement purposes to be paid in subsequent year	12,649.94
Capital items reported on the balance sheet for financial statement purposes but as operating expenditure for budgeting	-
Depreciation expense	<u>1,038.18</u>
Total expenses as reported on statement of activities - GAAP Basis	<u>\$252,440.66</u>

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED
ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

Board of Commissioners
GRAVITY DRAINAGE DISTRICT No. 3
OF CAMERON PARISH
Cameron, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the basic financial statements of the Gravity Drainage District No. 3 of Cameron Parish, a component unit of the Cameron Parish Police Jury, as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise Gravity Drainage District No. 3 of Cameron Parish's basic financial statements and have issued our report thereon dated May 28, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Gravity Drainage District No. 3 of Cameron Parish's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Gravity Drainage District No. 3 of Cameron Parish's internal control. Accordingly, we do not express an opinion on the effectiveness of the Gravity Drainage District No. 3 of Cameron Parish's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weakness or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and responses that we consider to be a significant deficiency as item 2014-1.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Gravity Drainage District No. 3 of Cameron Parish's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and is described in the accompanying schedule of findings and responses as item 2014-2.

Gravity Drainage District No. 3 of Cameron Parish's Response to Findings

The Gravity Drainage District No. 3 of Cameron Parish's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. Gravity Drainage District No. 3 of Cameron Parish's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Segregation of Duties

Condition: Our evaluation of the internal control structure revealed an absence of appropriate segregation of duties.

Criteria: As part of an adequate system of internal control, certain accounting functions should be segregated in order to cross-reference each other for accuracy.

Effect: Intentional or unintentional errors could be made and not detected within the accounting system.

Recommendation: To the extent cost effective, duties should be segregated and management should attempt to mitigate this weakness by supervision and review procedures.

Response: We have considered this weakness and determined that it would not be cost effective to employ sufficient personnel to obtain adequate segregation of duties. Management has attempted to mitigate this weakness by its supervision and review procedures.

Section II – Financial Statement Findings (continued)

2014-2

Budget Amendment

Condition: Although the board of commissioners made budget revisions during the year, the final budget was not amended for a variance in revenues and expenditures that is more than 5 percent.

Criteria: The Local Government Budget Act requires that the District adopt a budget amendment if there is a 5 percent variance in revenues or expenditures or beginning fund balance.

Effect: The District did not comply with the Budget Act.

Recommendation: The District should prepare a budget prior to year end and monitor the budget on a monthly basis. Any significant variances should be addressed and action should be taken as to whether an amended budget is necessary.

Response: The District will monitor the budget on a monthly basis and address whether an amendment to the budget is necessary each month.

Section III - Summary Schedule of Prior Audit Findings

2013-1

Segregation of Duties

Condition: Our evaluation of the internal control structure revealed an absence of appropriate segregation of duties.

Response: We have considered this weakness and determined that it would not be cost effective to employ sufficient personnel to obtain adequate segregation of duties. Management has attempted to mitigate this weakness by its supervision and review procedures.

2013-2

Pledged Collateral

Condition: During 2012 the District opened a new bank account at Capital One Bank. At times during the year, the account may exceed the balance insured by FDIC. The excess funds were not secured by pledged collateral.

Response: The District will authorize the District President to execute an agreement with Capital One for the bank to pledge collateral to secure bank balances in excess of that covered by FDIC insurance.

2013-3

Budget Amendment

Condition: Although the board of commissioners made budget revisions during the year, the final budget was not amended for a variance in revenues and expenditures that is more than 5 percent.

Response: The District will monitor the budget on a monthly basis and address whether an amendment to the budget is necessary each month.

Gravity Drainage District No. 3
Cameron, Louisiana

Schedule of Per Diem Paid to Board Members

For the Year Ended December 31, 2014

PER DIEM PAID COMMISSIONERS

The schedule of per diem paid commissioners was prepared in compliance with House Concurrent Resolution No. 54 of the 1979 Session of the Louisiana Legislature. In accordance with Louisiana Revised Statute 38:1766, board members receive \$60 Per Diem for each board meeting they attend. The Secretary receives \$100 for each board meeting attended due to additional job responsibilities associated with the position.
